OUR MISSION

Exploring: to provide a place and an atmosphere where people may practice liberal religion founded upon individual freedom of religious belief,

Caring: to offer emotional and spiritual support within a caring community of members and friends,

Nurturing: to provide a nurturing environment in which children can question and grow to develop their own religious beliefs,

Sharing: to embrace the cause of a united world community through love and service to humanity.

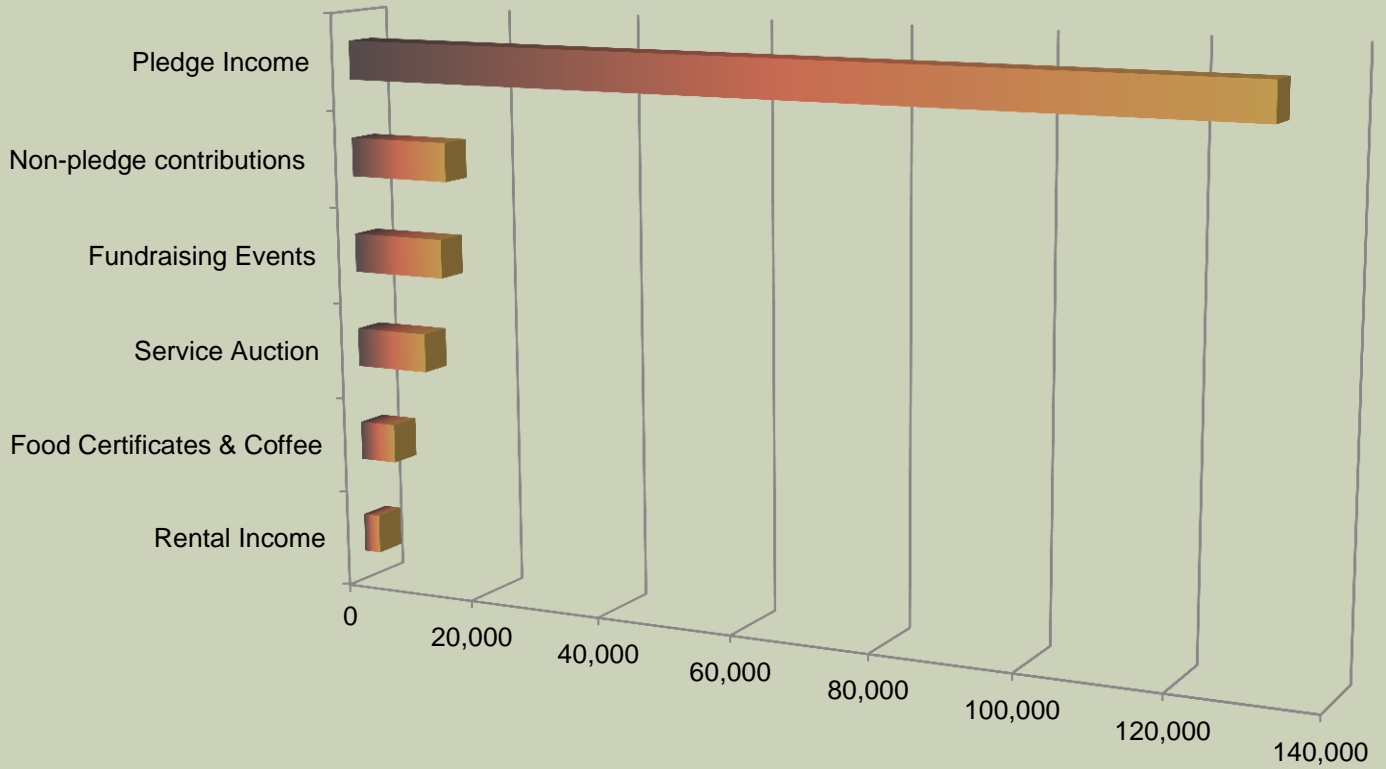

This is the first Program Budget for the Unitarian Universalist Fellowship of Waynesboro and it is intended to depict how our financial support relates to the actual work we do in our programs and ministries. We expect that it will show how our pledges, fundraising, and other financial support relate directly to the programs and activities which enable us to accomplish our mission. You will see how these fit into the major program areas to which our budget is devoted.

Program Budgets are visual representations of the financial life of the church. This first one for UUFW is based on our best estimates of how time is expended by the staff and how our non-personnel expenses are allocated. After the annual budget is adopted by the membership, a line item budget will be available for your review.

Our Stewardship theme this year is **“Making Our Flame Burn Brighter and Warmer,”** and is part and parcel of our congregation’s success in refurbishing and naming Chalice House and our transition to a new governance structure, and most importantly our dedication to a vibrant future.

Expenditures Overview 2015-2016

UUFW Program Expenditures 2015-2016

UUFW STAFF POSITIONS

Minister Full-time **Director of Religious Education 23 hours per week**

- Personnel expenses are the largest single expense for our Fellowship. Staff compensation and facility operational expenses have been allocated to the UUFW program areas based on a percentage of staff time spent on supporting our programs, committees, teams, and events. These percentages were based on estimates this year, with the expectation that they will be based on a staff time study next year.
- Our Fellowship has many hopes and dreams for our future. Our ability to realize those hopes and dreams depends to a large extent on our ability to afford the cost of supporting them. Please make our Board, Committees, and Teams aware of your vision of our future as the Mission and Vision Task Force completes its work.
- We value our staff's many contributions to our programs and ministries.
